

FSC Policy[®]

Grafing Printing Company has proudly chosen to adhere to the FSC[®] Chain of Custody (CoC) standard, whereby we commit to ensure that our production activities are undertaken in an environmentally responsible, socially useful and economically sustainable manner. Our commitment to sustainability is reflected in each step of our production processes, whereby we make different paper and paperboard products in compliance with the applicable international standards and legislation.

- We are committed to environmental conservation and responsible management of forest resources. Our production activities do not include any input resulting from illegal deforestation that compromises high conservation values (High Conservation Value Forests - HCVF).
- We support and respect fundamental human rights and adhere to socially sustainable business principles, including the traditional community rights and labor rights as defined by the applicable international conventions.
- Our production activities do not include any timber resulting from deforestation that endangers human rights in any way, timber sourced from forests converted into plantations or repurposed land, or forests where genetically modified organisms (GMO) have been introduced.
- Our mission is to create high-quality printed products while minimizing our environmental impact and complying with the principles of social responsibility. Sustainable practices are critical for the long-term success of our company and our partners, and we continue to work on improving our processes to ensure our compliance with the highest environmental and social standards.
- We are particularly careful about selecting our key suppliers of paper and paperboard used to make our products and ensure that they conduct their business in accordance with our environmentally and socially sustainable business values. We thus ensure that our products meet the highest standards in each step of the supply chain.

Our operations adhere to the labor rights conventions defined in the ILO Declaration on Fundamental Principles and Rights at Work and comply with the FSC values included in FSC-POL-01-004, which consider the rights and obligations defined by the applicable national legislation.
